

Welcome to Storefront, the product catalog and pricing module of WebTrack!

As the second step in our IT rollout, CLC is pleased to provide you with on-line access to products and pricing for your quoting needs! A new module of our WebTrack online account access system, Storefront allows you to check on pricing of stock products and create quotes for your own budgeting and quoting purposes. Below are some instructions with screenshots to get you familiarized.

Please note that this system is not designed to place orders. You can create quotes for your own use to get pricing on a job, but the quotes will not automatically be placed as orders. If you would like to order products from a quote you've created, please call your salesman or the office for assistance. We will not do anything with quotes that you have created unless you call to request it. When you do call, please have your quote number handy.

Thanks and we hope you find the system easy to use and beneficial to your business!

WebTrack

The screenshot displays the WebTrack storefront website. At the top, there are four logos for Concord Lumber, Littleton Lumber, Forester Millwork, and The Kitchen Works, each with its respective address and phone numbers. Below the logos is the website URL www.concordlumbercorp.com. A navigation menu includes links for Home, Product Catalog, Your Account, Sign In, Help, and About Us. The main content area is titled "Sign In" and contains the text "Please enter your details". There are two input fields: "User Name:" and "Password:". A "Sign In" button is located below the password field. A link for "Forgot your password?" is also present.

The storefront is accessed through our WebTrack online account access system. WebTrack can be accessed via a link on the upper right hand corner of CLC's website, or using the URL: <https://webtrack.concordlumbercorp.com>.

If you do not yet have online access to your CLC account, you can request it by clicking on the link on CLC's homepage and completing the survey. Within a day or two you will receive an e-mail letting you know your access has been activated.

Everyone who has a WebTrack account will automatically be given access to the Storefront product catalog. If you would like to limit access to the system, please contact [Dave Robblee](#), CLC's IT Manager, to let him know.

Once you are logged in, you will see a new tab along the top of the WebTrack screen called “**Product Catalog**”. When you click on this link, you will access Storefront.

In this module, you can search for and select products for which you would like to see pricing. You can build a quote by placing the item in your cart.

But first, let’s look at how to find products...

The first way you can look up a product is by using the “**SEARCH**” function. If you know the SKU of the product, you can enter it to find the product directly. But, if you don’t know the SKU, you can enter a keyword to search for the product.

In the example on the left, we’ve entered the keyword, PLYWOOD. Once you hit the search button, a list of all products with PLYWOOD in the name or description come up. You can scroll through the list and choose the product you are looking for.

The second way you can search for a product is by using the product categories listed on the left hand side of the screen.

To get to the same products as above, we would go into the product categories and choose: **SHEET GOODS**.

When you select “**Place Quote Now**”, you will be taken to a “**Checkout Details**” Screen.

You will notice that the default transaction type is **QUOTE**. It is possible for you to choose Order, but an order will not be placed. If you would like us to place an order based off of a QUOTE you have created, you will need to call your salesman or the main number and we will assist with placing the order.

You can then either input the delivery address where you would like the order to go, or choose from a delivery address that already exists in the system.
